ADAIR'S RADIOLA 17

The "Wonder Box" That Has Become the Most Popular of All Radiolas

RCA RADIOLA 17. The "wonder box" that operates from the electric light circuit (110 volt, 60 cycle, A. C.) as simply as an electric fan. Wonderfully balanced sensitivity, selectivity and tone fidelity. Built of the finest tested materials. The entire set self-contained in a fine manogany cabinet. Equipped with Radiotrons, \$157.50.

RCA LOUDSPFAKER 100 A. The best-known loudspeaker in the country. Ideal to use with Radiol 17. Its range and realism have made it the most popular of all loudspeakers. \$35.

THE RADIOLA 17, the product of the Radio Corporation of America, General Electric and Westinghouse, is the most popular Radiola ever offered because it meets these exacting tests of a fine radio instrument: Sensitivity—ability to pick up broadcasting stations, near and far, over the entire broadcast range.

Selectivity -- ability to select the program from one station to the exclusion of all others. Tone Fidelity-ability to reproduce faithfully-realis tically-music and voice as transmitted from the broadcasting station.

Simplicity—inexpensive operation as simple as an electric lamp or electric fan, at the touch of the finger. Dependebility-long life, with a minimum of upkeepresulting from precision manufacture with the finest materials under competent ergineering direction.

Behind the Scenes in Washington

By CHARLES P. STEWART

WASHINGTON, Feb. 23 .- Progressives put a presidential ticket in the field in 1924. There's hardly a hint of one in connection with ists, for instance, but he'd do —

the coming campaign.

True, Senator George W. Norris has the Progressive endorsement for the Republican nominament for t tion, but the Progressives know he won't get it. Yet scarcely anybody urges running him independently, like the late Senator Robert M. La Follette, four years ago.
It isn't that Progressive sentiment has wanted,

On the contrary, the group is stronger in congress — especially the senate—than when La Follette, the elder, ran. From all signs, this ought to be a better Progressive year than that was. However, the Progressives appear to have had their fill of third party activities.

Judgment, they simply were busing the surple of the distribution accepting a program that wasn't at all theirs in the first place—and thus we had the La Follette and Wheeler ticket.

It was all right The Progressives were well enough satisfied with the showing they made.

Still, they feel that it was mostally a wasted effort.

The fact is, La Follette probably wouldn't have been nominated in 1924, if it had been exclusively up to the Progressives to promine to him.

The Committee for Progressive Political Action—a clumsier name for it would have been hard to think of—originally was to have held, not a nominating convention, but a conference, after the Republican and Democratic selections had been made to decide the conference of the conference tions had been made, to decide es (Democrats) class as almost as what to do about it. At least a couple of score pretty fair senatorial Progressives, more or less!—out of a total membership of 96, when they're all there.

The fact is, La Follette probably wouldn't have been nominated in 1924, if it had been exclusively up to the Progressives to nominate him.

The Committee for Progressive Political Action—a clumsier name for it would have been hard to think of—originally was to have held, not a nominating convention, but a conference, after the Republican and Democratic selections had been made, to decide what to do about it. The intention was to choose, if possible, between the two major league presidential candidates, and to frame up a list of congressives could conscientiously vote for.

Blaine, Brookhart, Frazier, La Follette, Norris and Nye (Republicans, so-called), Shipstead (Farmer-Labor), Wheeler (Democrat)—thick-and-thin Progressives, all Borah, Howell and McMaster (Republicans) and the two Walshess (Democrats) class as almost as good. EVERY load of P.A. in your pipe is a load of sunshine in your smoke-system. Why do you suppose more Prince Albert is smoked than any other brand? I'll tell you. When you open a tidy red tin and set free that P.A. aroma, you're on your way.

When you taste that first, wonderful pull on your pipe, you've arrived. Cool as the keel of a river-boat. Refreshing as a breeze on the top deck. Mellow and mild and long-butning, with a body that puts satisfaction right over the plate every time.

Take the rearest path to pipe-joy. Go get yourself a fidy red tin of good old P.A. That's all there is to this business of finding the right combination to contentment. You'll say so after that first fragrant pipe-load of this delightful tobacco.

serious trouble. You can stop the now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and

heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as

one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion

contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respira-

tory diseases, and is excellent for build ing up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ash your druggist. (adv.)

you from your work?

A GIRL who earns her living — whether in store, office, factory or home — realizes the necessity of regular attendance at her place of employment. For this reason she works on day after day. When she becomes tired out and run-down, she feels that she must keep at her work without taking time to rest.

Thousands of girls have found that Lydia E. Pinkham's Vegetable Compound has restored them to a normal physical condition, and has made them fit for work. These two women testify to that fact:

HEALTHY AND STRONG

Hudson's long, constantly improved leadership of chassis values, riding qualities, performance supremacy, and operation smoothness, is this year rounded out with the most beautiful modern and varied line of body designs we have ever presented-and to the greatest public applause in all Hudson's long score of triumphs.

From pre-showings in hundreds of cities, including Detroit, from the brilliant New York Automobile Show, from the trade, the press and the man on the street come the most significant and powerful endorsements that Hudson has ever won.

Its leadership of mode extends to every detail and marks a new Hudson supremacy, as definite as its mechanical dominance through the Super-Six principle, and its companion invention which set today's standard for motor performance.

There are seven body styles on Hudson - three on the 118-inch chassis and four on the 127-inch.

Until you have examined and ridden in the new Hudson Super-Six you cannot know the most outstanding advancement in motordom.

employment. For this reason she works on day after day. When she becomes tired out and run-down, she feels that she must keep at her work without taking time to rest.

Thousands of girls have found that Lydia E. Pinkham's Vegetable Compound has restored them to a normal physical condition, and has made them fit for work. These two women testify to that fact:

HEALTHY AND STRONG

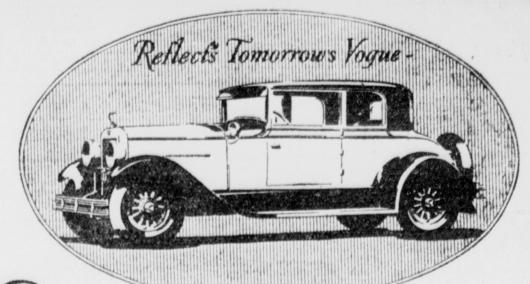

Silverton, Oregon: - "I am writing to tell you how much your medicine has helped me. I was doing cannery work, canning, sealing, etc., but had to quit work when sick as I would be so weak I could hardly walk across the room. friend of mine told me of Lydia Pinkham's Vegetable Compound have found relief when sick and it helps me more each time. Every one says I am a healthier and stronger girl. I am recommending the Vegetable Compound to all my friends." Julia Schmidt, 113 Willow St., Silverton, Oregon.

Fruitdale, South Dakota: - "I felt badly. It seemed like my back broke all to pieces and I couldn't stoop down to get anything from the floor. Then a friend told me to try Lydia E. Pinkham's Vegeall day long and I feel so good. am 38 years old and I look just as young as if I were 20. I am glad o answer letters from any one about this medicine because it has done me good." Sapping the The Culton Pictoria Great Pyramid of Value to the Greatest Reception in Hudson History

Hudson's long, constantly improved leadership of chassis values, riding qualities, performance supremacy, and operation smoothness, is this year rounded out with the most beautiful modern and varied line of body designs we have ever presented—and to the greatest public applause in all Hudson's long score of triumphs.

From pre-showings in hundreds of cities, including Detroit, from the brilliant New York Automobile Show, from the trade, the press and the man on the street come the most significant and powerful endorsements that Hudson has ever won.

Its leadership of mode extends to every detail and marks a new Hudson supremacy, as definite as its mechanical dominance through the Super-Six principle, and its companion invention which set today's standard for motor performance.

There are seven body styles on Hudson - three on the 118-inch chassis and four on the 127-inch.

Until you have examined and ridden in the new Hudson Super-Six you cannot know the most outstanding advancement in motordom.

proof...

there is a difference in FERTILIZERS

ERE is proof-proof of extra yields, better quality, earlier maturity, larger profits-made with "AA QUALITY" Fertilizers.

Read the letters printed at the right. They are from successful farmers who use sound farming methods and "AA QUALITY" goods.

These and thousands of similar letters prove that, whatever crops you grow, "AA QUALITY" Fertilizers will help you get more profit for every dollar

The superior crop-producing power of "AA QUALITY" Fertilizers is due to-

- 1. Great care in selecting the materials from which the plant-food elements are derived.
- 2. Formulæ based on a thorough knowledge of local crop and soil conditions; formulæ continuously checked and studied by a group of experts; formulæ tested by over 60 years of successful crop production.
- 3. Perfect mechanical condition, assured by extra care and the most exacting standards of manufacturing.

This year feed your crops with "AA QUALITY" Fertilizers—and let your crops feed your bank balance. Insist on getting "AA QUALITY" Fertilizers from your dealer.

SUCCESS FOR THREE GENERATIONS . . . Measrs. Frank Luce, Sherman H. Luce and Dallas S. Luce, of Ashtabula, Ashtabula Co., Ohio, say: "We continue to use 'AA QUALITY' Fertilizers into the third generation of our family, for the generation of our family, for the good reason that after a test of many makes, we have proved them the best we have found as yet to start and carry on to a finish all kinds of markei-garden crops, outdoors and un-der glass. They are always up to the high standard necessary to give us these results. Their mechanical con-dition is always fine."

VALUE OF LAND DOUBLED . Mr. Chris Selmier, of Bethlehem, Clark Co., Ind., says: "I have been a user of your make of fertilizer for the past 30 years with entirely satisfactory results and I consider that the permanent benefit to my land has doubled the value of same, from the use of 'AA QUALITY' Fertilizers."

—December 9, 1927.

UNIFORMLY SATISFACTORY
... Mr. Frank Connolly, of Guilford, Dearborn Co., Ind., ways: "I have used 'AA QUALITY' Fertilizers for several years, and the results on crops and drilling qualities have been uniformly satisfactory."—November 30, 1927.

CORN YIELD DOUBLED...
Messrs. George & Colman Harvey, of Princeton, Gibson Co., Ind., say:
"We fertilized 7 acres of corm in the spring of 1927 with 100 lbs. of 'AA QUALITY' Fertilizer. We had check plots in different sections of the field, and during the growing season the fertilized corn was twice the height of the unfertilized corn. When we gathered the corn we averaged 50 bushels per acre where the corn was fertilized, and only 25 bushels per acre without fertilizer. The cost of 100 lbs. of fertilizer was about \$1.50 per acre. We gained 25 bushels at 60c, or \$15 per acre. This figures 1,000% on the money invested."—December 13, 1927.

NE of the most remarkable real-life romances has come to its happy culmination in the marriage, in Chicago, of William Rosenwald, youngest son of Julius Rosenwald, the noted philanthropist, to Miss Renee Scharf.

Young Rosenwald, some time ago, was on a tour of the Continent, and it was while he was in Vienna that he first met Miss Scharf, a native of the Austrian metropolis.

It was a case of love at first sight, as the novelists are so fond of saying.
